LYNN CARRIE In accordance with Lynn's typical personality, she took off to her personal paradise known as Haiti, promising our editor that she'd mail her grad comment - she didn't and so her friends got together to try to piece together Lynn's personality. During the past five years, Lynn has brought us: vivid descriptions of great romances, great hairstyles, the only Princeton freshman with photocopied applications. Walk-a-thon meetings with Susan & Clare, New York, Boston, Port au Prince, Montreal, updates. "Oh, I'm sooo tired", last minute everything, our favorite "Will Lynn Carrie please report to the school office", kept the Bell Company rich, big lunches, going out with the tallest guy she could find, LCC connections, Monday morning looks - a reflection of the zombies she had on the weekend, an incredible ability to look great even when she's dying, "Paul Francis Sargeant". VALEDICTORY

As the final chapter of our Sacred Heart education comes to a close, we reflect on our high school years with fondness and with gratitude.

We remember the thousand and one smiles exchanged in the halls and the countless giggles - signs of contentment and of merriment. We remember, in contrast, the hard work - the trying experiences which forced us to grow and mature. The idiosyncrasies exclusive to our school - the armies of blue tunics and sacred traditions come to mind, endearing in themselves. But our fondest memories are those of the friendships we made. The spiritual side of our education is perhaps the most outstanding.

We have so often associated our class with the rainbow, a miraculous blending of stunning, defined colours, a gift of God to man, a symbol of peace, of hope, and of happiness. As individuals, we are the distinct colours, each decorated with a particular talent. What then could melt these colours together? Very simply, it is the friendships we made with the entire Sacred Heart family. As the class of '84, we, the departing members of this especially dear family, are the rainbow.

As long as the image of the rainbow is retained, so is the happiness it stands for - for as a favorite saying advises.

Happiness is where you are and what you want to be.
If you look, you're sure to find the rainbow of your dreams.
Tomorrow's fuller than a thousand yesterdays,
With the vision of a new day in your heart.

Comes from the works of the Monks of The Weston Priory

We must now leave behind the yesterdays and look to tomorrow with curiosity, ambition and anticipation. We have been well prepared and for this we are grateful to our parents, to Mother Johnson, to our teachers, and to the entire Sacred Heart community. The memory of our years at Sacred Heart will always remain a source of inspiration and support. It is a kaleidoscope of precious moments and priceless friendships, a treasure which will never fade.

And so, it is with difficulty but with honour that I bid farewell to Sacred Heart on behalf of the graduating class of 1984. The gifts we have received are invaluable. They will be cherished forever.

Thank you and adieu.
